The stock had been sent here from Cincinnati to be turned over to the Mercantile Trust Company, which is tryng to secure control of the ferry company for the Chicago, Rock Island & Pacific Railroad. Because of the contest between the Mercantile and Mississippi Valley trust companies for the control of the Wiggins Ferry Company, the price of stock has risen until it is valued at from \$500 to \$2,000 a share. The railroads asked for a postponement and pledged themselves to a readjustclared that such promises had been made before and wanted the investigation to proceed. The commissioners, however, after a conference, concluded to give the railise and postponed the meeting till June 16.

WASHINGTON, May 15 .- The negotiations between Secretary of State Hay and the ministers from Colombia, Nicaragua and Costa Rica looking to the acquirement of the necessary rights for the construction by the United States government of either the Panama or the Nicaragua canal have at last been concluded, and this afternoon the secretary of state sent to the Anthracite (all sizes), \$7.25 per ton; Blossburg, \$5; smokeless, \$4.75; Jackson, \$4.25; Kanawha, \$4.25; Pittsburg, \$4.25; Raymond, \$4.25; Winifrede, Senate three treaties covering the ground. The agreements, when sent to the Senate. were accompanied by a letter from Secretary Hay. The secretary, in transmitting the agreements, made no comments upon them. They are, as stated at the department, engagements to enter into treaty relations with the United States upon the basis therein stated after Congress shall have selected a route and the President shall have been duly authorized. In the view of the department, therefore, these are not, technically speaking, treaties, but, Gluck. Adolph. in the view of the other negotiations, they are practically conventions of a treaty character and are so regarded by them. The draft treaty or agreement submitted by Mr. Corea, the Nicaraguan minister, to- | Greenacrelsy, John C. day was a revision of a protocol drawn up by Secretary Hay in February. This docu- | Gray, Fred A. ment embodied the views of a number of senators as to what concessions Nicaragua should make in the canal matter. It was referred to Mr. Corea, who thereupon pointed out to Secertary Hay a number of instructions in which the provisions of the agreement clashed with the constitution of his government. Mr. Hay modified the document somewhat according to Mr. Corea's suggestions, and its tenor then was communicated to the Nicaraguan government, which in turn made several more alterations and then empowered the minister to present the document in its amended form to the State Department. The Nicaraguan agreement provides for

the lease of a strip of land which shall be hanna, 121/2c; Shetucket SW. 6c; Shetucket F, of construction and afterward be shortten miles wide while a canal is in course ened to three miles.
